Description

Cozy penthouse apartment in Antalya, 100m from the Konyaalti beach. Pay attention to the cozy 3-room apartment (pet house) in the Konyayalti area, 100 meters from the beach. Apartments with an area of 100m2, located on floors 4-5, in a comfortable residential complex. Convenient location, within walking distance, there are shops, restaurants, cafes, banks, bus stops and other socially significant objects necessary for life. To Konyaalti beach 100m Microdistrict Liman (Konyaalti, Antalya). The infrastructure of a big city, combined with clean sea and mountain air, the lack of large production and, as a result, excellent ecology, the proximity of the sea and the beach, the amazing beauty of the mountains - all this gives the area great value. Microdistrict Liman is the best place for recreation and living. Buying a property in Liman mikro in Antalya is considered one of the most liquid in Turkey, and there are obvious reasons for this: beautiful nature, clean beach, developed infrastructure and a shortage of land.
